## + experience

---

- 2008 - Present **Hear Talent Inc.** Vice President,  
Director of New Media  
Built custom CMS (PHP/MySQL) engine for musicians to showcase their talent while deploying the content via Flash, mobile devices & XHTML. Designed electronic press kits, promotional sites & print materials. Performed Live Art Demonstrations at music shows & venues.
- 2006 - 2007 **LIGiclee Printing** Lead Web Designer  
Designed & developed CMS (PHP/MySQL) for traditional artists. Responsible for designing their portfolios & dynamic Flash shopping cart system. Integration of server & client side technologies.
- 2007 - Present **Freelance Work** Designer & Developer  
Developed a production process covering: Discovery, Concepting, Production/Integration & Delivery. Created various detailed compositions & pre-production documents for informational, promotional & educational sites. Hired to rebrand the identity of various companies. Built reusable Flash components (mp3 players, video players, galleries). Built Social Network prototype for Creative Types (artists, photographers, designers, etc) to share and critique, named myArtflow.
